## Experience Summary

I started in IT area at 1992 in one company of bank applications and before this I worked in some banks in Brazil.

In 1997 I started work in Safra bank, São Paulo, Brazil, place where I started the most important phase of my professional journey.

At Safra Bank i started as a developer, manager IT and IT Head from Loans and Financings.

In my new stage professional i will intend to work as a developer in projects of systems development returned to the begins

My last seven years was dedicated to managed of IT Teams.

In this long time in Safra bank, i worked with some tecnologies, for example:

Sql Server, Oracle Database, Oracle PL-SQL, .Net Plataform (VB 4,5 e 6, VB.Net, C#), Mongo, ZIM, HTML, CSS and JScript.

In my free time i am studying Python because i believe this is a powerful language, open source and with a big community giving support.

I left Safra bank on 2021, June sixth.
